Hi Lily,

We reached out to Senators Feinstein and Harris as well. One piece of feedback that we have received is that they think it would help to put the level radiation detected in the deck marker in context of something that a lay person would understand. I know that was discussed at one point but I think when the a schedule changed that might have fallen by the wayside.

Best, Jeanine

Dear Monica and Jeanine,

Thank you. That is great. I don't know if OCII covered Feinstein and Harris, but just in case, Dean in EPA went ahead last night and sent the links to both CDPH & Navy online info to Feinstein, Harris, and Pelosi's offices just in case. Since it was at the end of the work day Pacific time, and we didn't know who was still in the office, so we went ahead without you. We just wanted to make sure they got the links from someone as soon as possible. If they get from multiple agencies, they probably won't mind. In addition I sent both links last night to Dr. Hunnicutt, head of the Citizen's Advisory Committee.

* Lily

Hello Lily, thanks for checking in. CDPH sent the letter you saw to state elected officials and to Leader Pelosi. It was my understanding from the calls that OCII was going to inform the local city officials, and the Navy was notifying congressional folks. Do you know if they covered the congressional folks?

Dear Monica,

Thank you for posting your update online:

<https://www.cdph.ca.gov/Programs/CEH/DRSEM/CDPH%20Document%20Library/RHB/Environment/Hunters%20Point%20Parcel%20A1%20scan-update-Sep-13-2018.pdf>

Will you be sending this to various elected officials, e.g. Congressional staff, Mayor, Supervisor Cohen, Citizens Advisory Committee, etc?

Also I wanted to introduce you Dean Higuchi, who is one of our legislative affairs staff at EPA. He could support your outreach to Congressional offices if you would like.

* Lily
